OVERWATCH LOOKOUT

## Prevent Theft & Vandalism

Protect every piece of equipment, from the heaviest generator to the smallest wrench, even if your jobsite sprawls across acres of outdoor space.

## Fast Setup

With CST's Overwatch System you can have everything on your jobsite secured within 15 minutes so you can focus on getting the job done.

## Simple Setup

After watching a 6 min setup video, you'll be able to deploy comprehensive security on your jobsite even if you have never touched a security system before in your life

## Ease of Use

End the constant battle of trying to educate your crew on important security practices that no one follows.

With CST's Overwatch System you can arm the entire system with the push of a button on your smartphone from anywhere in the world even if the last man out forgot to do it.

## Made Here, Supported Here

From flat steel to finished product, CST products are designed, built, and supported by friendly folks right here in the United States.

## Real Support

No more dealing with outsourced support call centers or impersonal automated answering systems. Our customer care, technical support, and 24/7 dispatch operators are all US-based and ready to take care of you.

## Built To Last

There is nothing flimsy about our system, we use only the highest quality materials so that you can rest easy knowing you have a system that was built to last.

OVERWATCH LOOKOUT

## Wireless Access

With Starlink, you have high speed wireless data that gives you access to your jobsite from wherever you are with a simple button click on your phone.

## Modular

With interchangeable plates, the Lookout can be adapted to fit your specific jobsite needs:

- Need Fire Protection - We Can Do That
- Need A License Plate Camera - Easy
- Just Need One Camera - No Problem

## Heavy Duty

Solid steel construction gives you a sturdy unit that can hold up to the tough weather and harsh environments found on the jobsite.

## Deterrent

Equipped with flashing red and blue lights the Lookout can deter potential thieves making it evident the jobsite is secured and protected.

## Live View

Up to 3 Pan-Tilt-Zoom cameras give the Overwatch Lookout a 360 degree view of the jobsite that you can view live using your phone.

## Simple & Safe Operation

With the simple push of a button, you can raise the mast up to 15ft above ground for the ideal Lookout position.

All cabling is safely protected inside the steel tubing.

OVERWATCH LOOKOUT

### Easy Setup

Deploying the Overwatch Lookout can be done with the press of a button. No need to hand-crank the mast into position so you can save time and energy.

### No Power? No Problem

Jobsites can be large, open, remote, and hard to secure. The Overwatch Lookout is equipped with Solar Panels and a large battery to keep you up and running even if your not plugged in or if your jobsite is remote and has no power onsite.

### Sturdy Base

With heavy duty extendable arms and strong adjustable height feet, you can quickly create a wide sturdy base and keep it level regardless of uneven terrain.

### Command Center

On board command center to view and control all cameras, raise and lower the mast, adjust solar panel angle, and arm and disarm the system.

### Convenient Deployment

The Overwatch Lookout can quickly and easily be forklifted or towed onto any jobsite for fast deployment.
