

OVERWATCH PERCH

Mobile Security Systems To Protect Your Jobsite

Prevent Theft and Vandalism

Protect every piece of equipment, from the heaviest generator to the smallest wrench, even if your jobsite sprawls across acres of outdoor space.

Fast Setup

With CST's Overwatch System you can have everything on your jobsite secured within 15 minutes so you can focus on getting the job done.

Super Simple

After watching a 6 min setup video, you'll be able to deploy comprehensive security on your jobsite even if you have never touched a security system before in your life.

End the constant battle of trying to educate your crew on important security practices that no one follows.

With CST's Overwatch System you can arm the entire system with the push of a button on your smartphone from anywhere in the world even if the last man out forgot to do it.

Made Here, Supported Here

From flat steel to finished product, CST products are designed, built, and supported by friendly folks right here in the United States.

Real Support

No more dealing with outsourced support call centers or impersonal automated answering systems. Our customer care, technical support, and 24/7 dispatch operators are all US-based and ready to take care of you.

Built To Last

There is nothing flimsy about our system, we use only the highest quality materials so that you can rest easy knowing you have a system that was built to last.

Wireless Access

Wireless cellular data gives you access to your jobsite from wherever you are with a simple button click on your phone.

Heavy Duty

Solid steel construction gives you a sturdy trailer that can hold up to the tough weather and harsh environments found on the jobsite.

Live View

4 Pan-Tilt-Zoom cameras give the Overwatch Perch a 360 degree view of the jobsite that you can view live using your phone.

Deterrent

Equipped with flashing red and blue lights the Perch can deter potential thieves making it evident the jobsite is secured and protected.

Mount Anywhere

The steel bracket on the back of the Overwatch Perch allows you to mount ("perch") the unit on a telephone pole, the side of a building, or anywhere else you want.

Protect Your Jobsite TODAY!

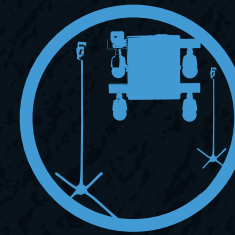

Call

Contact us & tell us about your specific needs, so we can help you identify the best solution for you.
